

# Live Webinar - Introduction to Cyber Insurance

**Duration:** 3 hours

**Delivery Method:** WebEx

## About the course

The modern business world is now heavily reliant on IT systems and infrastructure to support its business critical activities. Businesses also operate in a connected world where they and their employees make use of email, social networking and cloud computing. All this leads to additional risks to the business, some of which is not customarily covered by existing insurance arrangements.

This live on-line interactive insurance webinar is designed for delegates, who are new to Cyber Insurance.

The course will be highly interactive with delegate participation and engagement throughout. This half day course consists of two 90-minute on-line sessions with a 15-minute break.

There will be a maximum of 10 delegates.

The course is delivered by a Certified On-Line Learning Facilitator (COLF) who is a Chartered Insurance Broker with over 40 years insurance experience.

## Course Objectives

By the end of the course delegates should be able to:

- Describe the main cyber risks
- Describe the extent of cover for cyber risks in standard non-cyber policies
- Describe the policy cover, conditions and exclusions of specialist cyber risks insurance policies in the UK
- Detail the major client objections to purchasing cyber cover

## Course Content

Consideration of:

- What are cyber risks?
- The cover provided by conventional insurance policies against cyber risks
- The cover, conditions and exclusions of specialist cyber risks insurance policies in the UK
- How to overcome client objections to buying cyber cover
- Insurers' information requirements and underwriting considerations for cyber risks insurance
