

# Live Webinar - Haulage and Logistics

**Duration:** 3 hours (2 x 75 min sessions with a break inbetween)

## About the course

This live interactive insurance webinar is designed to introduce delegates to the issues of transporting goods around the world. In particular, it considers a haulier's liability and common conditions of carriage. It goes on to discuss warehousing liability and the role of a freight forwarder. Finally, there is an examination of the key features and limitations of a Haulier's Liability Policy.

Please note: This module does not include details of Marine Cargo insurance - see separate workshop.

There will be two 75-minute sessions with a break of approximately 30 minutes between each session.

There will be a maximum of 10 delegates.

## Who should attend?

This course is aimed at brokers and underwriters already handling commercial insurances, or anyone who wishes to gain a basic understanding of the logistics of transporting goods. Participants will gain an understanding of how liability can be incurred by the various parties involved in the process.

## Course objectives

At the end of the webinar delegates will be able to:

- What is meant by "Logistics"?
- Haulier's Liability
- The main features of common Conditions of Carriage
- Warehousing liability
- Freight Forwarder role and liability
- Key elements of a Haulier's Liability Policy

## Methodology

- Formal presentation
- Questions and break-out exercises
- Supplementary materials will be provided post-course
- At all points in the course, explanations will be supported by appropriate case law and statute

## Evaluation of understanding

- Open forum question and answer session
- Scenario analysis
- Feedback
