

Live Webinar - Introduction to Parametric Insurance

Duration: 3 hours

Delivery Method: Zoom

Maximum 10 delegates

About the course

This introduction to parametric insurance live webinar is for delegates new to Parametric insurance.

Parametric insurance is a rapidly developing area as it leverages new methods of utilising information, to provide innovative insurance solutions.

The course will be highly interactive with delegate participation and engagement throughout. This half day course consists of 2 x 90-minute on-line sessions with a break in-between the 2 sessions.

This webinar will be delivered via Zoom.

Learning objectives

After attending this webinar, delegates will be able to:

- outline the features of parametric insurance
- know when parametric insurance can be used as an alternative or to supplement conventional insurance
- be aware of some example parametric products currently offered or being developed
