

# Intermediate Level Cyber Insurance

**Duration:** 1 Day

## **About the course**

This insurance course is designed for delegates, who have some experience of Cyber Insurance and wish to expand and/or refresh their knowledge in this area.

There will be a maximum of 10 delegates.

The course is delivered by a Certified On-Line Learning Facilitator (COLF) who is a Chartered Insurance Broker with over 40 years insurance experience.

## **Course Objectives**

Delegates who successfully complete this course will be able to:

- Identify which types of customer could benefit from insurance against cyber risks
- Explain the extent of cover for cyber risks in standard non-cyber policies
- Explain the policy cover, conditions and exclusions of specialist cyber risks insurance policies in the UK
- Outline the major risk, underwriting and rating considerations of cyber risks insurance
- Describe the main Risk controls available

## **Course Content**

Consideration of :

- The impact of cloud computing on cyber risks
- The cover provided by conventional insurance policies against cyber risks
- Affirmative Cyber Endorsements (Exclusions) and their application to professional indemnity policies
- The cover, conditions and exclusions of specialist cyber risks insurance policies in the UK
- Risk controls and the role of IT and HR staff in cyber risk management
- Insurers' information requirements and underwriting considerations for cyber risks insurance

This in-house face to face course can be tailored to meet individual client needs and a final course outline will be agreed prior to delivery of the course.
