

## Live Webinar – Understanding Reinsurance Claims

**Course duration:** 6 hours (split between 2 sessions on 2 days, each session of 3 hours)

### About the course

This intermediate-level course is for reinsurance claims practitioners aiming to deepen their grasp of fundamental reinsurance policy terms. These insights will play a pivotal role in shaping the recovery process for facultative, proportional, and non-proportional reinsurance claims.

The course commences with a review of the concepts of facultative, proportional, and non-proportional reinsurance and the underlying motivations for obtaining these types of reinsurance. We then delve into an examination of coverage and its practical application through real-world claims scenarios.

### Course objectives

By the end of the webinar delegates will be able to:

- Understand the need for facultative reinsurance
- Understand the need for Treaty Proportional reinsurance
- Understand the need for Treaty Non-Proportional reinsurance
- Apply claims scenarios to facultative reinsurance claims scenarios
- Apply claims scenarios to Treaty Proportional claims scenarios
- Apply claims scenarios to Treaty Non-Proportional claims scenarios

### Course Content

- A quick recap of what facultative reinsurance is and why buy it
- A quick recap of what proportional reinsurance is and why buy it
- A quick recap of non-proportional reinsurance is and why buy it

We will introduce and apply claims scenarios to:

- Facultative reinsurance - follow clauses and follow the fortunes.
- Proportional reinsurance - quota share
- Proportional reinsurance - surplus lines
- Non proportional reinsurance - CAT XL
- Non proportional reinsurance - top and drop
- Non proportional reinsurance - clash cover
- Non proportional reinsurance - stop loss
- Non proportional reinsurance - XS of loss
- Non proportional reinsurance - aggregation
- Non proportional reinsurance - indexation & capitalisation.
